II. Core Elements of the Hutchings College and Career Academy

- **Integrated Academic and Career-Focused Learning:** Grants will provide students with education and training that combines rigorous academic and career-focused curriculum to increase students' employability in in-demand industries and prepare them for employment, post-secondary education, long-term occupational skills training, or registered apprenticeships.

- **Work-Based Learning and Exposure to the World of Work:** Strong partnerships will provide work-based learning opportunities. In addition to actual work experience, youth participants will also participate in field trips, job shadowing, or other types of opportunities that provide students with exposure to different career paths and prepare them for the world of work.

- **Robust Employer Engagement:** Employer partners will provide work-based learning and mentoring, creating a path for students to in-demand industries and occupations including those in information technologies, advanced manufacturing and other science, technology, engineering and math (STEM) fields. Employers will also work closely with schools on professional development and training for staff to drive the sustainability of the program over the long term.

- **Individualized Career and Academic Counseling:** As an integral part of the program design, students will be provided with individualized career and academic counseling experiences to strengthen their career and post-secondary awareness and explore opportunities beyond high school.

- **Integration of Post-secondary Education and Training:** Students will participate in education and training, while they are still in high school that leads to credit toward a post-secondary degree or certificate and an industry-recognized credential, where appropriate.
